Senior Cloud & Security Engineer with 10+ years of experience across Microsoft 365 security, cloud infrastructure, identity, endpoint management, and enterprise operations.

Specialized in implementing and strengthening security controls across Entra ID, Defender, Intune, Exchange Online, and Sentinel to improve risk posture, governance maturity, and operational resilience. Strong infrastructure background combined with hands-on delivery of security hardening, monitoring, policy enforcement, and audit-aligned control improvements.

- Microsoft security engineering across identity, endpoint, email, and cloud control layers
- Proven background in security hardening, governance improvement, and operational risk reduction
- Strong infrastructure foundation supporting secure enterprise transformation and resilience
- Strong knowledge of security best practices, compliance standards, and risk management.

Core Technical Skills:

Identity & Access Security: Microsoft Entra ID, Conditional Access Policies, Multi-Factor Authentication (MFA), Privileged Identity Management (PIM), Identity Protection.

Endpoint & Device Security: Microsoft Intune, Microsoft Defender for Endpoint (MDE), Device Compliance Policies, BitLocker Encryption, Attack Surface Reduction (ASR) Rules.

Email & Collaboration Security: Exchange Online Protection (EOP), Microsoft Defender for Office 365, Mimecast, Darktrace, SPF, DKIM, DMARC, Mail Flow Security.

Data Protection & Governance: Microsoft Purview, Sensitivity Labels, Data Loss Prevention (DLP), Audit and Compliance Management.

Monitoring & Threat Detection: Defender XDR, Microsoft Sentinel, KQL, incident investigation, threat monitoring, alert triage.

Cloud & Infrastructure Security: Defender for Cloud Apps, Microsoft Azure, Windows Server, Active Directory, virtualization, backup and recovery.

Network & Perimeter Security: FortiGate, Cisco, VLANs, VPNs, firewall policy administration.

Scripting & Administration: PowerShell, Python, Microsoft 365 administration, Exchange Online, Azure administration.

PROFESSIONAL EXPERIENCE

Senior Engineer – Cloud & Security | IBT Solutions, UAE

Client Assignments:

CYVN Holdings | Abu Dhabi | Nov 2024 – Present

Saif Al Ghurair Group | Abu Dhabi | Feb 2023 – Oct 2024

- Delivered security hardening and governance improvements across identity, endpoint, email, cloud, and monitoring domains in enterprise environments.
- Hardened identity and access security through Microsoft Entra ID Conditional Access, Privileged Identity Management (PIM), and Identity Protection to reduce unauthorised access risk.
- Strengthened endpoint security by deploying and tuning Microsoft Defender for Endpoint, including TVM, LAPS, ASR rules, and compliance controls through Microsoft Intune.
- Improved email security posture through configuration of SPF, DKIM, DMARC, TLS enforcement, and mail flow controls across Exchange Online, Mimecast and Darktrace.
- Built and enhanced Microsoft Sentinel detection and response capabilities through analytics tuning, KQL-based threat hunting, triage patterns, and automation improvements.
- Supported audit readiness and control assurance by developing evidence-based tracking

and remediation processes aligned to governance and compliance requirements.

IT Associate | Unilabs Middle East, Dubai, UAE.

October - 2021 to January - 2023

- Supported hybrid infrastructure and Azure cloud operations across enterprise environments, contributing to service continuity and operational stability.
- Assisted with architecture, provisioning, and administration of Azure services and hybrid infrastructure components aligned to business requirements.
- Coordinated incident resolution, identity administration, and technical escalations across infrastructure and end-user service areas to maintain business operations.
- Contributed to Windows, network, and cloud environment administration, supporting reliable and secure IT service delivery.
- Delivered projects and operational improvements within deadline, helping reduce overhead and improve service readiness.
- Received a Certificate of Appreciation from EXPO for supporting IT operations at COVID-19 mass testing centers.
- Recognised by senior leadership for timely project execution and operational improvements.

Information Technology In-charge | Telal Resort & Jebel Hafit Desert Park, Al-Ain, UAE.

January - 2021 to October - 2021

- Managed IT infrastructure and operational technology support across two hospitality properties.
- Administered hotel business systems including PMS, POS, and Microsoft/Oracle database environments.
- Maintained telephony and connectivity services across Alcatel-Lucent and Cisco IP communication platforms.
- Implemented backup and recovery processes to support business continuity and reduce operational risk.

IT SUPERVISOR | Auris Group of Hotels, Dubai, UAE.

March-2017 to December 2020

- Increased Booking.com Wi-Fi review score from 7.7 to 8.4 which leads to indirect gain in hotel revenue.

SERVER SUPPORT ENGINEER – IT Team Lead

IND Innovation Private Limited, Hyderabad, India.

January-2016 to January-2017

Clients: Indian Government Registration & Stamp Department, Essjay Ericsson, Tata Teleservices Limited, Bharthi Airtel, Vodafone India.

IT SUPPORT ENGINEER

PCS Technology Ltd.

October-2014 to November-2015

Client: Bajaj Allianz Life Insurance Company Limited.
